## Principal's Message

Dear Families,

Wow! What a productive month of March we had! It was wonderful to see so many parents during parent-teacher conference week. 99% of our parents participated in conferences with the majority (96%) coming to Bowers School to meet with teachers. Special thanks to our PTA for sponsoring a Scholastic Book Fair where parents were able to have their children browse books while they met with teachers. Your continued support of developing your child as a reader—not only someone who is able to read, but actually enjoys reading—is so important to developing life-long learners!

Besides supporting your children's growth in reading, math and writing across all curriculum areas, please take some time to remind them of the importance of demonstrating our behavioral expectations of being safe, respectful and responsible in all areas of the school.

Arriving to school on time every day, demonstrating expected behaviors and giving forth their best effort in all they do are habits which will serve our students well as they develop into outstanding citizens of our community. I am always excited to learn of the accomplishments of former Bowers students as they continue to develop through high school and beyond! Thanks for your continued partnership as we nurture your beautiful children with whom we are lucky to spend each and every school day! Happy Spring!

Sincerely,

*Mary Lou Ruggiero & Pari Ghetia*

Please be on time for school – tardy bell rings at 9:05. Please drive safely in the Bowers neighborhood where our children are walking and/or riding bikes to school.

## April's Habit of Mind Creating, Imagining, Innovating

<https://vimeopro.com/wondergrove/habits-of-mind/video/105406236>

Try a different way! Generate new and original ideas. Think about how something might be done differently from the norm. Einstein warned of the importance of having creative and innovative thinkers: "The significant problems we face cannot be solved at the same level of thinking we were at when we created them." Learners who are inquirers and risk-takers demonstrate this habit of mind - being creative and imaginative in their thinking and in their approach to problem-solving and dilemmas!

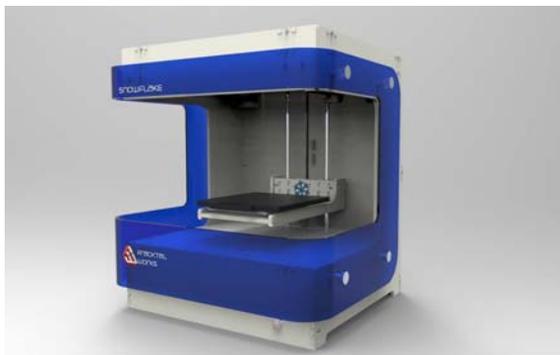

Check out the main hallway bulletin board for more examples, special thanks to Mrs. Quaglia & Mrs. Trares.
