Mr. Pattacini opened the workshop at 6:35 p.m.

Dr. Kisiel reviewed his report on seven possible options for improving elementary school facilities. Discussion continued throughout the Superintendent's presentation. No vote was taken. However, based on the discussion general consensus preferred option 4, which included a new Verplanck School on the current Verplanck site and/or option 5, which provided for a like-new renovation of the current Verplanck School.

Dr. Kisiel's report included as workshop minutes.

The Board will schedule a public hearing on its preferred option to a public hearing on April 2 at the Bailey Auditorium at Manchester High School.

The workshop concluded at 8:20 p.m.

Respectfully submitted,

Richard W. Kisiel Ed.D.
Superintendent of Schools
