(e) If confirmation of drug use is required under the circumstances, the professional employee will send the student to the school nurse or medical advisor. The parent or designated responsible will then be notified.

When a professional employee obtains information related to a student who, on or off school grounds or at a school sponsored activity, is under the influence of or possesses, uses, dispenses, distributes, administers, sells or aids in the procurement of a controlled drug, controlled substance, drug paraphernalia, alcohol, or tobacco, from a source other than the student's confidential disclosure, that information is considered to be involuntarily disclosed. In this event, the following procedures will apply.

(b) Any physical evidence (for example, alcohol, drugs or drug paraphernalia) obtained from a student indicating that a crime has been or is being committed by the student must be turned over to the building administrator or designee or to law enforcement officials as soon as possible, but no later than within two calendar days after receipt of such physical evidence, excluding Saturdays, Sundays and holidays. C.G.S. Section 10-154a(b). Because such evidence was not obtained through a professional communication, the name of the student must be disclosed to the building administrator or designee.

The building administrator or designee may then search a student's person or possessions connected to that person, in accordance with the Board's policies and regulations if he/she has reasonable suspicion from the inception of the search that the student has violated or is violating either the law of a school substance abuse policy.

Any physical evidence obtained in the search of a student, or a student's possessions, indicating that the student is violating or has violated a state or federal law must be turned over to the law enforcement officials as soon as possible, but not later than within three calendar days after receipt of such physical evidence, excluding Saturdays, Sundays
