

## **INSTRUCTION 6176**

### **Applied Education**

It is the goal of the Manchester Board of Education that all Manchester students will possess and demonstrate the skills necessary for career success in a fast-changing world. To meet this goal, Manchester has developed of a K-12 School-To-Career system.

The board encourages educators and community members to work together to develop high-quality programs for all students. The career curriculum will include: curriculum connectedness; academic, technical, and employability skills; classroom activities that bridge to the work world; experiences in connection with the business world.
