

BOWERS ELEMENTARY'S 2017 – 2018 TEACHER OF THE YEAR

CHRISTINA GARRE

Christina Garre is an extremely dedicated and talented teacher who develops strong relationships with her students and their families. She strives to get to know her students as learners and sets high expectations for all her students as she masterfully differentiates her instruction to meet their needs. In addition to her strong teaching talents, Christina is a leader among her colleagues, serving on the School Improvement Team and STEM Team. She works collaboratively with grade level colleagues as well as a cross grade level colleagues and support staff. This year Christina served as a mentor to a first year teacher. She recently recognized this first year teacher at one of our staff meetings by saying that the teacher was one of the most talented first year teachers she has ever known. It is not a surprise that this very lucky first year teacher had Christina Garre, one of the most gifted teachers with whom I have had the pleasure of working, as her mentor. It is truly an honor to recognize Christina Garre as our Bowers Teacher of the Year for 2017 - 2018.
