

## ROBERTSON ELEMENTARY'S 2017 – 2018 TEACHER OF THE YEAR

### PATRICIA LEGAULT

The Robertson School Staff is proud to have Pat Legault represent us as our Teacher of the Year. Pat is the Numeracy Coach at Robertson. She possesses technical expertise, the understanding of how to work with adults and students, and a passion for teaching and learning, all of which make her a major asset to Robertson teachers, students and families. Pat has served Robertson and the District on a variety of committees including our School Improvement Team, SSAT, Math Curriculum Academy and the Superintendent's Advisory Board. She is a TEAM certified mentor and in this capacity has supported many new teachers in their first two years in the profession. As mentioned above, Pat is passionate about what she does. She has helped mathematics and math instruction become vibrant at Robertson. As a coach, she has the ability to make teachers feel comfortable working with her as they collaborate to strengthen math instruction. But Pat's reach goes beyond the Robertson staff. She has the charisma and creativity to generate tremendous interest and engagement from families through our annual Family Math Night and morning breakfasts with families, both of which are designed to communicate curriculum goals and give parents instructional ideas, and materials, that they can use at home to support their children's academic progress. Pat is a talented coach who takes great pride in seeing Robertson teachers grow into excellent math instructors and students participate enthusiastically in math classes while becoming true problem solvers.
