

UCONN

Want to help advance autism research?

Want to help us learn about the brain?

The UCONN Developmental Cognitive Neuroscience Lab is recruiting children and adults (all ages) for several studies:

- Who?*
- We are recruiting children and adults **with and without Autism Spectrum Disorder**.

What's involved?

- You will spend a few hours playing games involving language and problem solving.

Where?

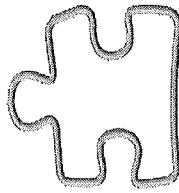

- We are located in the Bousfield Psychology Building on the Storrs UCONN Campus.

When?

- Scheduling is flexible, including nights and weekends.

Why?

- You will be compensated \$10/hour and you will help us learn more about autism and the brain!
