

CALL FOR JUDGES

5th Annual Manchester Science Fair with Invention Convention April 23, 2016

Calling all Judges: The 5th Annual Manchester District-Wide Science Fair with Invention Convention will take place on April 23, 2016 at Illing Middle School. We are expecting nearly 100, Kindergarten through 8th grade students from Manchester Public Schools to participate in the fair. In order to execute our largest District-Wide Science Fair yet, we are seeking service minded educators, scientists, mathematicians, and engineers to volunteer their time to evaluate science fair projects, and determine which students will represent Manchester Public Schools at the Connecticut Invention Convention.

As a volunteer judge, you will have the opportunity to encourage the next generation of scientist and inventors. Along with your role as an evaluator of student projects, you will also have the job of encouraging, motivating and even teaching students. We have found the fair to be a rewarding experience, both for judges and students alike.

If you are interested in judging, please fill out the registration form on the district's website at www.mpspride.org/page.cfm?p=1421 and a confirmation letter with details will be sent by email. Thank you, in advance for your help in making this year's fair a tremendous success.
