### Students from Bennet Academy bring happiness and warmth to children in their community...

We have families in the town of Manchester struggling to meet their basic needs. Students from the Flash program at Bennet Academy had an idea to relieve the burden some families face and bring the gift of happiness and warmth to children in their community. They raised \$300.00 from a walk-athon they participated in and used their text savyness to purchase winter accessories during Cyber Monday. The students donated over a dozen winter coats, snow pants and hats to the Manchester Pre- School Center. The winter clothing will be utilized by classroom teachers during outdoor play sessions. The Manchester Pre-School Center staff and families are grateful for their generosity.
