LitLife...

As Phase I of the district's work with LitLife, LitLife consultants will meet with teams of K-5 teachers by grade level to discuss and model aspects of a whole-small-whole approach to literacy instruction that will ultimately provide all students in Manchester with an equity of literacy experiences.

Topics may include, but not be limited to: best practices in literacy instruction, definitions of key structures of teaching, the scheduling of the literacy block and classroom libraries.

We look forward to highlighting aspects of LitLife's influence on K-5 classroom environments and instruction.
